**To:** House Finance Committee  
**Subject:** Please pass H 6026!  
**Attachments:** H 6026 Support from G. M. Edwards.pdf

See attached PDF containing the following testimony in SUPPORT of H 6026:

My name is Georgine ("Gigi") Edwards, and I strongly object to any of my tax money supporting war-related activities. I have always been morally opposed to warfare and horrified at the high percent of my federal and state tax money that finances what Dwight D. Eisenhower famously called "the Military-Industrial Complex." My home state of RI, to which I pay taxes, should immediately divest of pension funds that have anything to do with military weapons manufacturing. More than abortion (which I actually support) or capital punishment, **war, to me, is clearly murder--in fact it is mass murder--and yet I am forced to finance it against my will with every single paycheck and every tax bill that I pay.** Please put an immediate stop to this and pass H 6026.

Thanks for your attention,

Georgine Maniscalchi Edwards

Saunderstown RI 02874

## **H 6026 Support from Georgine Maniscalchi Edwards:**

My name is Georgine ("Gigi") Edwards, and I strongly object to any of my tax money supporting war-related activities. I have always been morally opposed to warfare and horrified at the high percent of my federal and state tax money that finances what Dwight D. Eisenhower famously called "the Military-Industrial Complex." My home state of Rhode Island, to which I pay taxes, should divest of pension funds that have anything to do with military weapons manufacturing.

More than abortion (which I actually support) or capital punishment, **war, to me, is clearly murder--in fact it is mass murder--and yet I am forced to finance it against my will with every single paycheck and every tax bill that I pay.** Please put an immediate stop to this and pass H 6026.

Thanks for your attention,

Georgine Maniscalchi Edwards
